

## Donation Request Criteria

Project Yumi aims to be a beacon of positive change by enriching the lives of those in need in Papua New Guinea. Our team is active in supporting various schools, health centres, associations and other organisations within PNG. As we are accountable to sponsors, donors and those who we donate to, we need to ensure that we maximise the impact our donations make. For donations to be distributed the following criteria must be met.

- Your school, health centre, association or organisation is registered in Papua New Guinea. Please provide details.
- You are able to provide contact details including name, contact number and email address of responsible contact person.
- You are able to provide a letter of request stating the donations you are seeking. If you are an association or organisation we also ask for a profile. Please note no monetary assistance will be given under any circumstance.
- Once donations are delivered they must be presented in front of students, staff and/or local community.
- No donations can be sold or used for personal gain
- Evidence of delivery will need to be provided. We ask for a minimum of five photos showing the donations arrival and their distribution or how they are being utilised within your facilities.
